TO ALL INTERESTED PERSONS:

Central Valley Regional Water Quality Control Board (Central Valley Water Board) staff has determined that the El Dorado Hills Wastewater Treatment Plant (Facility) is eligible for coverage under General Order R5-2017-0085 for *Municipal Wastewater Dischargers That Meet Objectives/Criteria at the Point of Discharge to Surface Water* (Municipal General Order). Enclosed is a tentative Notice of Applicability (NOA).

The El Dorado Irrigation District owns and operates the Facility. The Facility provides sewerage service for the community of El Dorado Hills. The Facility is currently authorized under existing Order R5-2013-0003 (NPDES No. CA0078671) to discharge disinfected tertiary treated municipal wastewater to Carson Creek in El Dorado County. The tentative NOA, once final and effective, would provide coverage for the Facility's discharge under the Municipal General Order, at which time the terms and conditions in Order R5-2013-0003 will cease to be effective except for enforcement purposes.

Any comments or recommendations you may have concerning the tentative NOA should be submitted no later than 5:00 p.m. on **20 August 2018** in order for the Central Valley Water Board's Executive Officer to give them full consideration prior to the finalization and issuance of the NOA.
